All people with a developmental disability have access to health services that maximize their wellness and function.

Our Guiding Principle

Health care for people with developmental disabilities is interdisciplinary, team-based care, with patients and caregivers at the center of the team.
Learn more about the history of the Office of Developmental Primary Care, meet our team of experts, and read the story behind our logo.

**CART Services [5]**

The Office of Developmental Primary Care is pleased to announce the CART Services Mobile Consult Team! Click here to learn more about this exciting new program.

**Clinical [6]**
This section contains clinical tools for clinicians, self-advocates, and caregivers. It includes resource materials, tracking tools, forms to help organize care and more.

Advocacy [7]

Find a range of materials including documents written by self-advocates, and information on navigating systems, supported healthcare decision-making, and successful community living.

Research [8]
The ODPC offers clinical content expertise and has collaborative relationships with many agencies and community organizations. Learn more about our current projects here.

Training [9]

Find information on access and diversity, best practices, curricular resources, lectures and workshops, and more.
